Unity

PROFESSIONAL SUMMARY

Enthusiastic and tech-driven student with hands-on experience in game design and innovation-focused internships. Skilled in JavaScript, automation tools, and agile teamwork. Passionate about applying creative solutions to real-world tech challenges, with a strong foundation in problem-solving and collaboration, and seeking growth opportunities to further use and expand my technical skills.

WORK EXPERIENCE

Game Designer

Maysalward

June 2023 - August 2023 / Amman, JO

- Collaborated with a dynamic team to design engaging game mechanics in Unity and C#, significantly enhancing game performance through strategic game loop optimization.
- Applied core game design principles to contribute innovative ideas during weekly design reviews, enhancing player engagement through collaborative brainstorming with team members.
- Utilized industry-standard tools like Blender and Unreal Engine to create over 10 unique game assets, enhancing project quality and bolstering my skill set in game development.

Intern

Bank al ahli

June 2024 - July 2024 / Amman, JO

- Teamed up with diverse cross-functional groups in dynamic brainstorming sessions, resulting in the creation of 5+ innovative prototypes that addressed key internal challenges and sparked new project initiatives.
- Collaborated with designers to provide actionable feedback that enhanced the usability of mobile banking interfaces, improving user satisfaction and engagement.
- Designed an intuitive mobile banking app interface, improving user engagement by 25% and reducing navigation errors by 30%.

PROJECTS

Food Meal Planner

Collaborator

January 2025 - March 2025

•

Designed and queried a relational database
